About Us

Since 1937, our school family has provided education, aid and care for children from all socio-economic and religious backgrounds, and for those with challenges. Around 25% of our children avail free or subsidized education, books, clothes and other facilities. With innovative teaching methods, a safe environment, trained teachers, inclusive education and a range of activities, we have focussed on developing the talents of each child.

Impact of COVID-19

COVID-19 has hit the school and society hard.

We are thus unable to recover arrears; yet we are struggling to include all our children in our online classes to keep their education on-track and aid those with lack of resources.

Normal resources being sparse, supporting our teachers and staff with their salaries, maintaining online lessons and facilities for the same is an uphill task.

Today we stand before our alumni & well-wishers with an appeal.. help the next generation rise above the pandemic

You CAN make a difference

Choose a plan to help us: Sustain our teachers and staff, help less-privileged children and support our online education software and hardware requirements
